

ALEMDAR
GROUP OF COMPANIES

PROMOTIONAL CATALOGUE

Our company, which started its operations in the field of quarry management and aggregate production nearly 50 years ago, has successfully engaged in many areas of the construction sector to this day. In the past, our company worked with the General Directorate of Highways, State Hydraulic Works (DSİ), special provincial administrations, municipalities, cement factories, and various institutions and organizations, but has since focused its main activities on road construction.

Throughout this half-century, our company has proven itself with successful projects for many different institutions and organizations, and continues to move forward steadily with ongoing projects.

Efforts have been made to transfer the success and half-century of experience gained in domestic operations abroad,

in order to continue our activities internationally as well.

In line with this goal, we have officially opened our company's branch in the sister country Kazakhstan and have also obtained our Category 1 license.

Constantly renewing and strengthening itself with new investments, our company maintains all the teams and equipment needed for its operations in-house.

In addition to the construction sector, our company is also working on making investments and operating in different industries.

HISTORY

Founded in the 1970s, Alemdar Group of Companies has grown steadily and consciously over the past 50 years, completing numerous successful projects in the construction sector.

With its half-century of experience in the industry, Alemdar Group has become one of the most experienced and sought-after companies in the sector.

During this time, the company has successfully and promptly completed projects for many institutions, especially the

General Directorate of Highways,
State Hydraulic Works,
Special Provincial Administrations, and
Municipalities, delivering them without compromising on quality standards.

Our group, which has especially focused on road construction projects, has specialized teams and the necessary equipment to handle all types of work in this field. In every project we undertake, our primary goal is to ensure cost-effectiveness, safety, durability, and comfort. In line with this goal, every stage of production is carried out under the supervision of our experienced and expert technical teams.

Our group, which began its operations in the early years with quarry management and aggregate production, continues these activities but has primarily focused its main operations on road construction projects.

In summary, the fields of activity of our group are as follows:

- Highway Construction Works
- Dam and Pond Constructions
- Bridge and Viaduct Constructions
- Tunnel Constructions
- Infrastructure Works
- Superstructure Works
- Building and Facility Constructions
- Railway Constructions
- Mining Operations
- Tourism Sector Activities

Grubumuz Taahhüdü Altında Devam Eden Projelere örnek olarak;

ÇORUM-OSMANCIK ROAD CONSTRUCTION COMPLETION PROJECT

- Authority:** T.R. Ministry of Transport and Infrastructure, General Directorate of Highways, 7th Regional Directorate
- Contractor:** Mİ-TUR Müh. İnş. + GKM Yol Yapı Joint Venture
- Project Description:** Completion Work for Earth Grading, Structures, Bridge, and Superstructure (Hot Mix Asphalt) Works between Çorum-Laç in on the Çorum-Osmancık Road and between Osmancık-Merzifon Junction and Laçın.
- Project Length:** 43.41 km
- Project Standard:** BY-BSK
- Project Budget (est):** 2.460.000,00 TL
- Contract Date:** 31.01.2023
- Completion Rate:** 65,00%

ÇORUM-OSMANCIK ROAD CONSTRUCTION

Authority:	T.R. Ministry of Transport and Infrastructure, General Directorate of Highways
Contractor:	Abdullah Alemdar İnş. A.Ş. + Ahis Yapı Ltd. Şti. Joint Venture
Project Description:	Construction Work for Earth Grading, Structures, Bridge, and Superstructure Works between Çorum-Laçın on the Çorum-Osmancık Road and between Osmancık-Merzifon Junction and Laçın.
Project Length:	43.41 km
Project Standard:	BY-BSK
Project Budget (est):	1.464.000,00 TL
Contract Date:	31.03.2015
Completion Rate:	99,96%

GÜMÜŞHANE-ŞİRAN BAHÇ ELİ POND CONSTRUCTION

Authority:	Ministry of Forestry and Water Affairs, General Directorate of State Hydraulic Works, 22 nd Regional Directorate
Contractor:	Alemdar Müh. İnş. + Mİ-TUR Müh. İnş. Joint Venture
Project Description:	It is being constructed over the Çayırlar Stream in Bahçeli Village, affiliated with Şiran District, Gümüşhane Province.
Project Budget (est):	62.120.941,00 TL
Contact Date:	21.03.2014
Completion Rate:	98,50%

OUR FACILITIES AND MACHINERY FLEET

Our group, which possesses all the equipment required for every project it undertakes, has the following main facilities and machinery fleet:

FIXED FACILITIES

İKİSU PRODUCTION FACILITIES

Location: İkisü Mevkii - Merkez / Gümüşhane

Year of Establishment: 1999

FACILITY DETAILS

Licensed Quarry: Mescitli - 15.18 ha, Operating Permit and License

Crusher: PDK 140 Crushing and Screening Plant

Concrete Plant: 60 SA / M3 Fully Automatic

Washing and Screening Plant: Mobil Washing and Screening Plant

Facility Complex: Prefabricated Buildings

MAHMUDIYE PRODUCTION FACILITIES

Location: Yeniköy Area- Mahmudiye / Eskişehir

Year of Establishment: 1991

FACILITY DETAILS

Licensed Quarry: Yeniköy - 100 ha, Group II-a, Operating Permit and License

Crusher: PDK 120 Crushing and Screening Plant

Concrete Plant: 60 SA / M3 Fully Automatic

Washing and Screening Plant: Mobile Washing and Screening Plant

Facility Complex: Prefabricated Buildings

FIXED FACILITIES

ÇORUM PRODUCTION FACILITIES

Location: Kirkdilim Area / Çorum

Year of Establishment: 2013

FACILITY DETAILS

Asphalt Plan: E-MAK 240 tons/hours

Crusher: PDK 140 Crushing and Screening Plant

Concrete Plant: 120 SA / M3 Fully Automatic

Mechanical Plant: SM-3 , 2X60 Hp 1500 d/d- 2.4 m3

Facility Complex: Prefabricated Buildings

Location: Gökçeler Village Area -
Şiran / Gümüşhane

Year of Establishment: 2010

FACILITY DETAILS

Licensed Quarry: Gökçeler- 59.58 ha, Group II-A,
Operating Permit and License

Crusher: 90-Type Crushing and Screening Plant
